Bridging the gap of gender diversity

- ✓ We are committed to gender diversity, currently one of the weakest in India (industry average of only 20% women at work)
- ✓ We support the 'Young Women In Investment initiative' by CFA Institute.
- ✓ The G8 accredited program 2020 creates awareness about financial careers and facilitates participation of women in the financial sector.
- ✓ A four-week boot-camp for women which is followed by paid internships at reputable financial institutions, including Abakkus. (CY*- 2019)
- ✓ We are committed to reach 30% gender diversity ratio by the year 2025 as we expand our research and administrative team over the coming years.

Empowering Children

- ✓ India harbors one of the largest population of adolescents on the planet, would stand to benefit massively if adolescents are well fed and educated.
- ✓ We worked with the Cosmic Divine Society to feed around 1200 children for a period of 1 week every year for the last 4 years. We strongly believe that our children are the governors of our future, and their nurturing is necessary for our country to prosper. (Since CY-2018)
- ✓ We also worked with Vallabhdas Dagara Indian Society to foster and care for the mentally challenged kids in India. We took the responsibility of co-parenting 20 children for a period for the last 2 years which includes training and teaching them to be skilled, employable and independent. (Since CY- 2020)

Investment philosophy

Risk reward equation

- Expected returns must justify the risk / uncertainty taken
- A good company might not necessarily be a good stock
- Focus on the price we pay, and value derived
- What is in the price?

Patient investors

- Buy and hold
- Invest in a stock as if investing in a business
- Think like a partner

Agile and flexible

- Each investment opportunity is looked upon individual merit
- Not constrained to a particular theme or style

Alpha generators

- Believe in investing with an endeavor to generate alpha over the markets rather than just allocating within benchmark index
- Growth companies where profitability is expected to grow higher than market average
- Fundamentally underpriced stocks with reasonable growth expectations
- Mid Cap companies with a scalable business model and growth potential to become large cap

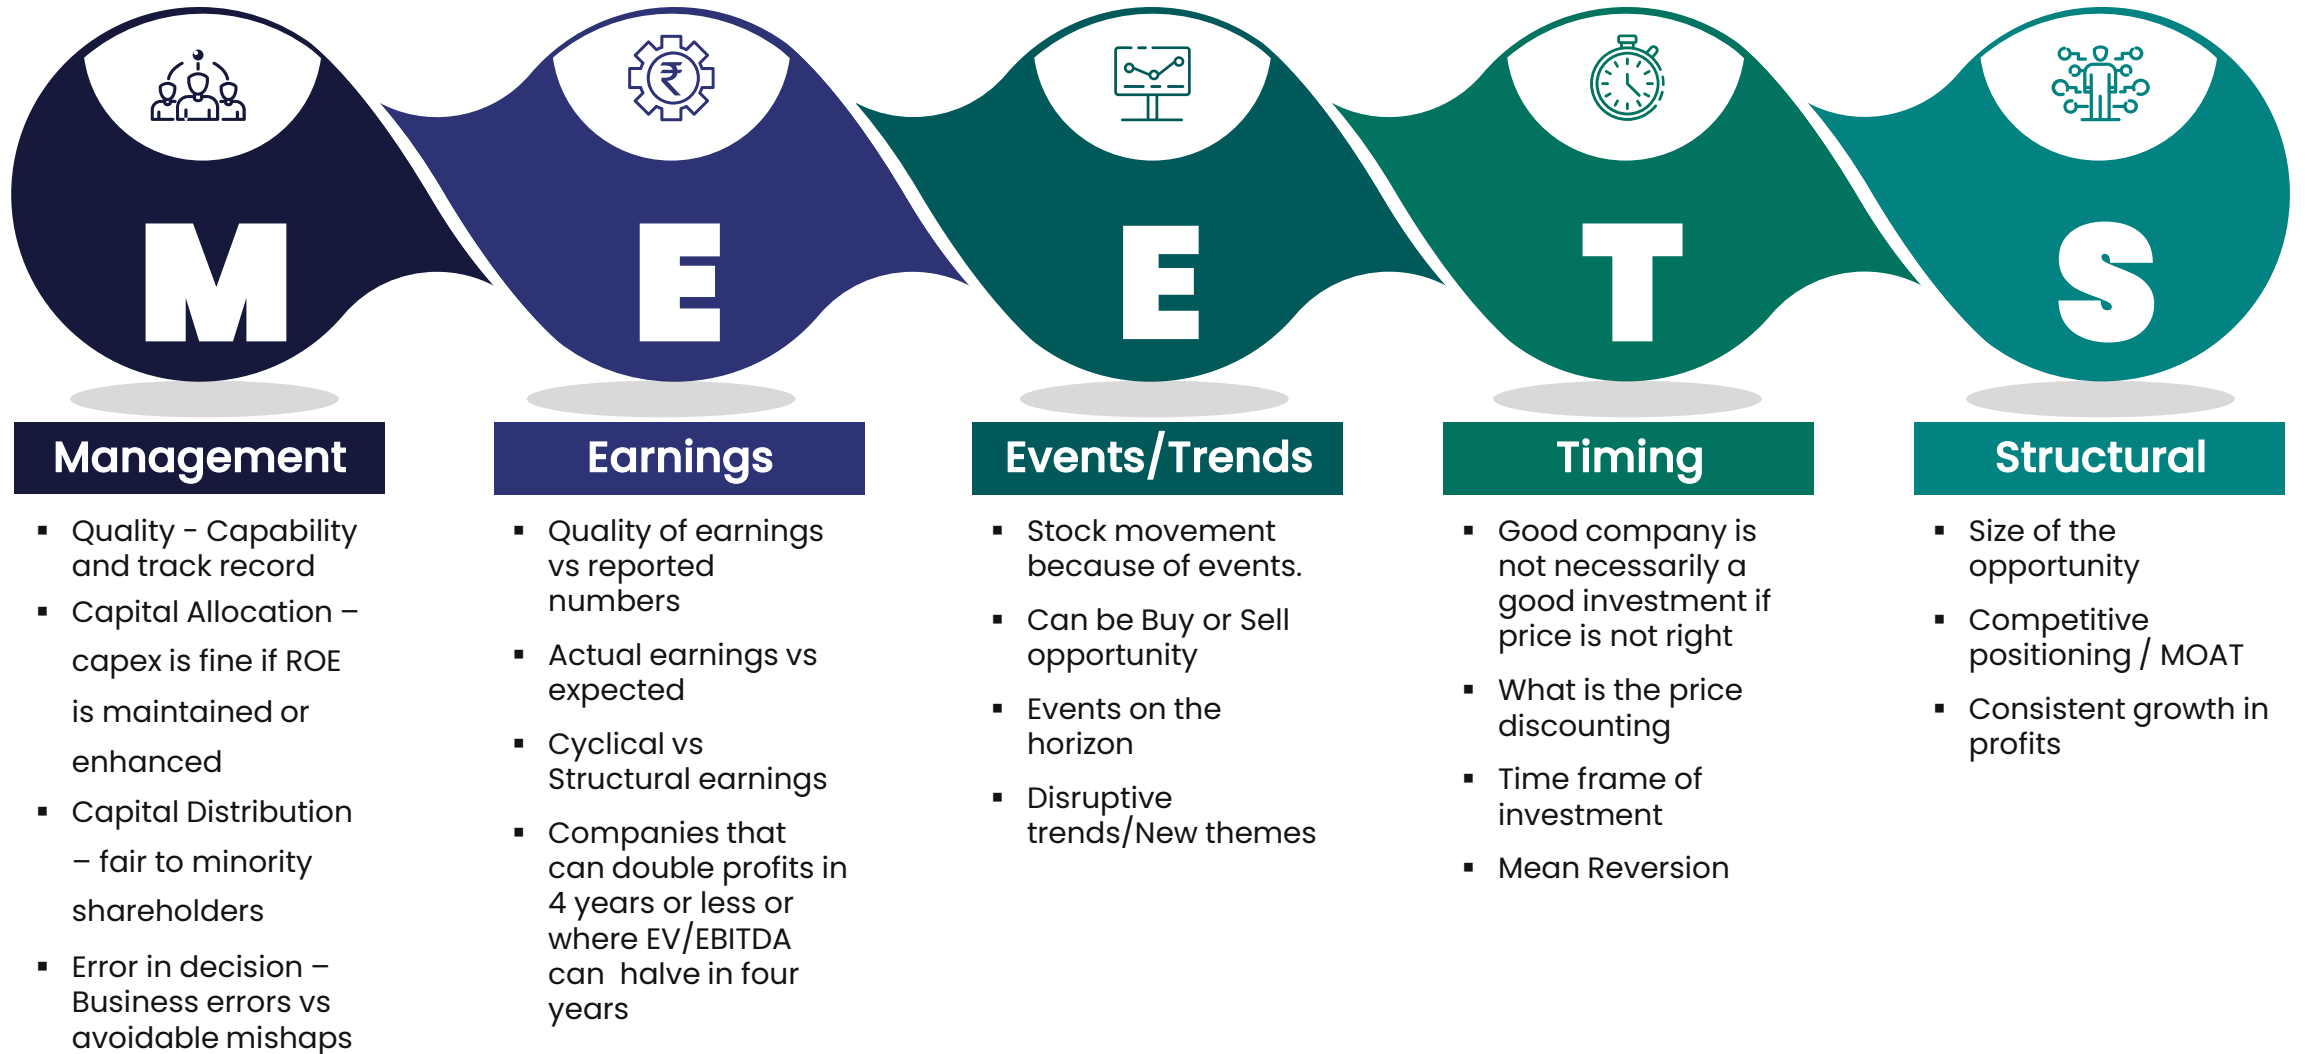

Fundamental driven

- Bottom-up research with focus on balance sheet
- Numbers speak more than presentations and hype
- Returns ultimately are all about earnings

Happy to be contrarian

- Prefer to be first, early and/or only investors
- Do not chase the momentum
- Open to look at companies across sectors, market caps and business cycles

- Fundamentals don't pan out as expected due to sector deterioration, company specific issues, governance issues.
- Not shy to accept when thesis goes wrong.
- Stocks may do much better than expected.
- Position becomes insignificant and can't / don't want to add.
- New investment idea better than existing holding in terms of risk reward.
