PROFESSIONAL SUMMARY

Energetic and driven backend software developer intern with over 6 months of hands-on experience in **Java** development. Proficient in web development technologies such as **HTML**, **CSS**, and **JavaScript**, specializing in **Spring Boot** for crafting efficient **RESTful APIs** and **Microservices** architecture. Excited to leverage my expertise, acquire new skills, and contribute to cutting-edge projects as a software developer intern.

TECHNICAL SKILLS

Languages : CoreJava, OOPS Principles, Java 8, HTML, CSS, JavaScript
Frameworks : Spring Boot, Microservices, REST principles
Databases : SQL
Dev Tools : Visual Studio Code, Git, Gitlab, IntelliJ Idea, Eclipse, Postman

EXPERIENCE/INTERNSHIP

Software Development Internship Nov 2023 - Present
Omv'sab IT Solution

- Streamlined back-end operations by developing a Java-based inventory management application, reducing data retrieval time by 30% and enhancing operational efficiency for client services.
- Gained valuable experience in Core Java and MySQL while assisting the development team on various web development projects.
- Utilized strong analytical and problem-solving skills.

EDUCATION

GES.R.H.SAPAT College of Engineering, Management Studies and Research 6.89 CGPA | 2021
Bachelor of Engineering in Computer Engineering

Gurukul Polytechnic College 69.56 | 2016
Diploma in Computer Engineering

L.K.& V.S.Aher 72 | 2012
Secondary School Certificate

PROJECTS

Project *Real Estate Sales (Istato) • DEC 2023 - Present*

- Developing a web application using Java, Spring Boot and microservices which will serve end-to-end requirements from generating leads to closing a sales deal.
- This application will have different logins for Admin, all employees and users as well. Listing property for sell or rent a constructed property or land and user can access it and further all processes will be taken place in single organization so this is a one-stop solution for all real estate needs.
- Tools and skills used: Core Java, Java 8, Spring Boot, Microservices, MongoDB, IntelliJ Idea, MongoDB Compass, Git, Postman, SonarLint, GitHub, Docker, Jira etc.

BE Project *ONLINE ADMISSION PROCESS APPLICATION USING HYBRID PLATFORM*

- Online Admission system aimed at streamlining the admission application process in schools and colleges. The portal supports various modern technologies such as payment gateways, auto SMS, and auto-email for student admission application confirmation.

Diploma Project *FOOD ORDERING SYSTEM*

- An outline of a food ordering system, which is a software that allows restaurant businesses to accept and manage orders placed over the Internet. Also, an admin management interface for the restaurant to receive and manage customer orders.

CERTIFICATIONS

- Java Developer Certification** From RevaTech Software Solutions PVT.LTD
- Oracle SQL Step By Step SQL Course** From **Udemy**
