SUMMARY

A passionate web developer with a diverse skillset of HTML, CSS, JavaScript, Bootstrap, PHP, C++, Java, and basic XML. Demonstrated proficiency through 10 mini projects in 10 days, building 2 professional websites, and a graduation project. Eager to contribute and learn in the evolving web development landscape.

PROJECTS

Greenfield Agro Services Website

November 2023 - Present

- I am currently developing a business website for Greenfield agro services based in Nashik.
- I used HTML, CSS, Bootstrap and Javascript for the frontend of the website.

Online Voting System

Bachelor's Project • April 2023 - December 2023

- I made this project while pursuing my bachelor's degree.
- I used HTML, CSS, Bootstrap & Javascript for Frontend of project.
- I used Php & MySQL for backend.
- Used Xampp server to locally host the project.

ShbabMahajan Technologies Website

September 2023 - September 2023

- I made this Website for ShbabMajan Technologies based in Oman.
- I used HTML, CSS, Bootstrap and Javascript for the front end of the website.
- I used Php and MySQL for the backend of the website.
- Also used phpMyAdmin for database.
- The website is yet to be live.
