SUMMARY

Java Developer with over 1.5 years of experience in the IT and Software Development industry. Expertise in Core Java, Java EE, Spring Boot, Hibernate, and developing scalable RESTful APIs. Strong understanding of microservices architecture. Proficient in SQL databases, including MySQL and Oracle. Familiar with frontend technologies such as HTML, CSS, and JavaScript. Skilled in programming languages including C, C++, PHP, and Node.js. Committed to delivering high-quality solutions and continuously expanding technical expertise

WORK EXPERIENCE

Java Developer at A2Z IT HUB PVT.LTD

May 2023 - Nov 2024

- Developed and maintained scalable RESTful APIs using Core Java, Spring Boot, and Hibernate.
 - Designed and implemented database schemas and queries using MySQL.
 - Enhanced web application frontends using HTML5, CSS3, Bootstrap, and JavaScript.
 - Collaborated on projects involving advanced Java technologies and ensured optimal performance.
-

SKILLS

- **Frontend Development:** HTML, CSS, Bootstrap, Ajax, jQuery, JavaScript
- **Backend Development:** Core Java, JDBC, JSP, Servlets, Hibernate, Spring, Spring MVC, Spring Data JPA, Spring Security, JWT Authentication, Spring Boot, Thymeleaf, MySQL, RESTful APIs, Postman, Node.js, Express.js
- **Databases :** MySQL, Oracle etc.
- **Cloud Platforms:** AWS (EC2, S3, Elastic Beanstalk, RDS)
- **DevOps & Tools:** Docker, Maven, Git, GitHub, Tomcat Server, XAMPP etc.
- **Programming languages :** Java, C, C++, PHP, Node.js

PROJECTS

Employee Management System

- Developed a comprehensive platform to manage employee and client information and project requirements.
- Utilized Spring Boot, MySQL, Thymeleaf, HTML, CSS, JavaScript, and jQuery for development.

E-Commerce Web Application (footwear)

- Created an e-commerce application facilitating seamless shoe purchasing and inventory management.
- Integrated advanced backend services using REST APIs, Spring Boot, Hibernate, and MySQL.
- Built responsive frontend interfaces with HTML, CSS, JavaScript, and Ajax.

Billing System

- Designed a billing solution for retailers to manage inventory, sales, and customer data efficiently.
- Leveraged Java, Spring Boot, MySQL, Hibernate, Spring Security, and Thymeleaf to build robust functionality.

Local Food Supply Management System

- Developed a web-based application to streamline and automate the operations of a mess or food service establishment.
- Focused on improving efficiency, reducing manual workload, and providing a seamless experience for administrators and users.
- Utilized Node.js, Express.js, MySQL, HTML, CSS, and JavaScript for development.

EDUCATION

Master of Computer Application

2022-2024

- Vidyanchal Shikshan Sanstha, Dr. Babasaheb Ambedkar University, Aurangabad.

Bachelor of Computer Application

2019-2022

- Matsyodari Arts, Commerce and Science College, Ambad, Dr. Babasaheb Ambedkar University, Aurangabad.
