

MANSI MANGESH AGRE

PROFILE

A dedicated and results-driven IT professional with a Bachelor of Science in Information Technology (BSc IT), seeking to start a career in the networking field. Adept at designing, configuring, and managing network infrastructures, with a solid foundation in network protocols, IP addressing, and network security. Possesses hands-on experience in troubleshooting, implementing network solutions. Eager to contribute technical expertise, a passion for technology, and problem-solving skills to a dynamic network administration or support role.

CERTIFICATION

Diploma in Network engineering

- Completed coursework covering A+, N+, CCNA, and Microsoft technologies.
- Gained foundational knowledge of computer hardware, software, and troubleshooting techniques.
- Developed expertise in networking concepts, including LAN/WAN technologies, network topologies, and protocols.
- Acquired skills in configuring, managing, and troubleshooting Cisco routers and switches, along with knowledge of routing protocols (OSPF, EIGRP, RIP).
- Learned about Windows Server management, Active Directory, and other Microsoft network services and tools.

EDUCATION

PROJECT

- Vehicle Parking Booking Website

Developed a web-based platform that allows users to search, book, and pay for parking spots in real-time. Built with a responsive design for both desktop and mobile users, the website aims to simplify parking management and enhance user convenience in urban areas.

HOBBIES

Painting, Travel, Cooking

SKILLS

- Installation & Configuration
- Windows server management
- Network Troubleshooting, configuration and security
- Protocol knowledge (TCP/IP, DHCP, DNS and routing protocols like OSPF, EIGRP)
- Microsoft 365
- System troubleshooting
- Windows server (basic knowledge)
- Virtualization technology (VMware, Hyper-V)
